

2024 REPORT

On the High-Quality Education Program

Ensuring comprehensive and fair high-quality education and encouraging lifelong learning for everyone at IEU

2024 REPORT
On the High-Quality Education Program
Ensuring comprehensive and fair high-quality education and encouraging
lifelong learning for everyone at IEU

In 2024, International European University continued its mission to ensure high-quality education and provide lifelong learning opportunities for all of its students. Our efforts were focused on the High-Quality Education Program in 2024.

In 2024, International European University kept developing and upgrading educational programs according to the current requirements and labor market demands. We designed new programs and updated the existing ones in order to provide students with high-quality knowledge and skills.

The University kept working extensively on ensuring the high quality of education. We expanded the system for assessing the quality of training programs and training processes. We conducted student and academic staff surveys to obtain feedback and improve learning processes.

In 2024, International European University actively supported the lifelong learning concept. We introduced advanced training programs for graduates and other stakeholders. We also supported student initiatives concerning training after graduation from the basic program.

In 2024, the University made significant steps in the development of the educational sector. Our students continue to show the high level of knowledge and skills acquired during their studies. Many of our graduates have found successful careers in various industries.

In 2024, International European University continued its mission to ensure high-quality education and promote lifelong learning. We are committed to our students. Thus, we will keep developing and improving educational programs and processes to achieve this goal.
